MANAGEMENT OF COMPLEX MATERIAL FLOW BY SAP EWM-MFS

- Intelligent implementation of shipments
- Real time control and coordination of the complete material flow
- Management by SAP EWM-MFS

Intelligent Implementation of shipments

- Shipment priority: Dynamic prioritization of shipment lines

- ▶ Shipment Loading Date
- ▶ Shipment Loading Time
- ▶ Delivery Type
- ▶ Shipment Terms
- ▶ Additional Requirements based on process

- Cyclical control and adjustment of the shipping priority
- Automatic wave management

SALT-Scheduler: Software to manage and coordinate complex material flow

- Load oriented orchestrated small parts warehouse / Shuttle / Picking and Packing Management
 - ▶ Creation and approval of storage tasks / Queue-Assignment
 - ▶ Proof of capacity of the system and implementation of transport orders
 - ▶ Compliance and merge of different shipment combinations from other storage areas including manual processes
 - ▶ Planning and execution of replenishment process
- Creation of continuous running material flow

Lean and efficient shipment processes by SALT Add-On KEP monitor

- Integration of SALT Add-Ons KEP-Monitor in SAP EWM
 - ▶ Connection of all logistic service providers and shipping agents in SAP
 - ▶ „Inline“ label printing in high dynamic material flow process on container conveyor system
 - ▶ Daily closing by Data transmission and manifest
 - ▶ Complete transparency in SAP ERP (shipment) by replication of handling unit Data (e.g. Tracking number)
- Increase of efficiency and performance in the shipping area by usage of the KEP monitor.

4.770 SICK products ensure a smooth process:

- Bar code readers CLV650, Lector 654
- Handheld scanners IDM261 Bluetooth
- 3D Smart Camera Trispector
- Master Data Analyzer
- Pick to light curtains
- Safety light curtains mac4, minitwin2
- Measuring automation light grids MLG
- Incremental encoders DBS60 Core
- Miniature photoelectric sensors W4-3 G6
- Inductive proximity sensors IME18, IM18, IQ10
- Multitask photoelectric sensors PowerProx
- Safety locking devices i110 Lock
- Small photoelectric sensors W12L-2 Laser, W9-3
- Linear measurement sensors OLM100 Hi

- Electro-mechanical safety switches i16S, i11OR
- Small photoelectric sensors W14-2, W18-3
- Inductive safety switches IN3000 Direct
- Absolute encoders A3M60 Profibus, AFS/AFM60 SSI
- Mid range distance sensors DT35
- Inductive proximity sensors IME12
- Multiple light beam safety devices M4000 Advanced
- Small photoelectric sensors G10, W9L-3
- Ultrasonic sensors UM30

Quality and efficiency in the shipment process by innovative technology.

Pick-it-Easy working places

Multi-Order-Commissioning

Traceability / barcode reading for safety products

Employees are supported by instruments (weighing machines, light curtains and pick to light)

Analytics Solutions

A suite of industry-tailored software solutions that analyze data and images collected from intelligent sensors.

MANY THANKS FOR YOUR
ATTENTION.
